

SANMINA-SCI

Cables

Kunshan, China

Quick turnaround time and on-time delivery.

Low-cost assembly of cable harnesses and electromechanical assemblies.

For quick turnaround and on-time delivery, Sanmina-SCI's Kunshan cable facility has the technology and responsiveness to meet your production demands. Our Kunshan facility specializes in the latest manufacturing technologies for cable harnesses and electromechanical assemblies, including insert molding, ultrasonic welding, high-speed cable, mini-USB cable and filter-cable assembly. And with on-site engineering support, our Kunshan facility can help you introduce new products to market quickly and efficiently. Plus, the facility can deliver products both

domestically and abroad, and support you with RMA and repair services.

Manufacturing Services

- Cable cutting, crimping and stripping
- Insert molding
- Ultrasonic welding
- Harness assembly
- Reliability and testing

Engineering Services

- NPI
- DFM
- Over-mold design
- Product extension
- Electrical testing

Testing Services

- Hi-pot
- Continuity, impedance
- Point-connection, insertion force
- Differential impedance matching

Technologies

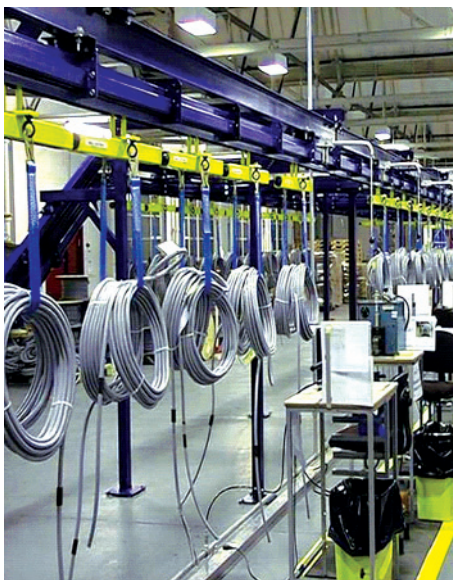

- Lead-free products
- D-sub, RF cable
- High-speed cable
- Mini-USB cable assembly
- Filter cable assembly

Logistics Services

- RMA
- Repair
- Domestic shipments
- Export shipment
- Global logistic support

Certifications

- ISO 9001:2000
- ISO 14000
- TL 9000-H R3.0/3.5
- UL
- CSA
